

## *The Child Within*

*With every breath of air I take*

*The child within takes one too*

*With my every heartbeat*

*The child within has two*

*Wherever I walk*

*The child within walks too*

*We're together night and day*

*Breathing, walking, sleeping*

*Sharing my body, sharing my life*

*What I do for me, I do for you,*

*The child within*

*We may not be able to touch*

*Or see one another*

*But there 's a link*

*That only we can share*

*It 's the magical link of life*

*Between me and you,*

*The child within*
