

Sunrise

*This morning I watched the sun come up
clothed in her eternal beauty
and I thought
it doesn't matter where you are in the world
the sun will always show up
even when the sky is darkened by cloud or mist
behind those swirling grey coverlets
the sun shares her light
and her brightness is just a moment away*

*If only on the dullest days
or in the darkest nights
we'd remember that
tomorrow the sun will rise again
to share her special light
and her brightness will always be
just a moment away*
